

Return on Public Investment

The Downtown Transportation Fund supports revitalization efforts in designated downtowns with over \$300,000 in VTrans funding annually. Investment in infrastructure and public spaces stimulates private investment and creates a sense of identity and pride in downtowns across Vermont. The Downtown Transportation Fund is a financing tool that helps municipalities pay for transportation-related capital improvements within or serving a designated downtown. Past projects include streetscape improvements, electric vehicle charging stations, parking facilities, rail or bus facilities, utility relocation, street lighting and way-finding signage.

Since its inception in 1999, the program has invested \$9.7 million to support 109 projects in 21 different communities leveraging over \$47 million in local funding. Recently awarded projects include the Taylor Street reconstruction project in Montpelier, Center Street Marketplace lighting in Rutland, Kingman Streetscape project in St. Albans and sidewalk improvements in Poultney and Vergennes.

Vergennes - Transportation Improvements Spark Revitalization Efforts

The Downtown Transportation Fund (DTF) program supports revitalization efforts in designated downtowns by making these areas more pedestrian, bike and transit friendly. Since 2003, Vergennes has utilized \$294,721 in Downtown Transportation Fund grants to support streetscape projects including ADA accessibility ramps to storefronts, sidewalk replacements, crosswalks and other beautification features. These revitalization efforts have made the downtown more attractive to visitors, improved pedestrian safety and restored the economic vitality and walkability of Vergennes.
