

September 10-13, 2017

Las Vegas, Nevada

Solar Power International

Your Gateway to High-performance and Innovative, World-class Supply Chains

Solar Power International is North America's largest solar trade show. With over 18,000 solar professionals, 600 exhibitors, and more 230,000 square feet of space. Each Industry Pathway Includes targeted educational opportunities to help share your knowledge. SPI gives you the full picture of solar. You will be in front of the solar professionals who are driving the industry forward in all sectors including storage, electric vehicles, and event smart home automation.

The Opportunity

Join the Vermont Global Trade Partnership, and the U.S. Commercial Service and participate in:

- **A shared Vermont pavilion with separate booth space;** but still connected to our Green Community.
- **Onsite U.S. Commercial Service and State of Vermont staff.**

Benefits

- ✓ Professional Booth Display & Exhibit Space in the Vermont Pavilion
 - ✓ Networking events
- ✓ Identify and request meetings with relevant and high level contacts prior to the event
 - ✓ Face-to-face meetings with the contacts of your choice
 - ✓ Signage, Exhibitor Passes, Security & Booth Staffing
- ✓ Access detailed profiles of all the attendees from the online catalogue
