Disasters:**Declaration Number**

FEMA-4043-VT

Narratives**Disaster Damage:**

Tropical Storm Irene and the other flooding events of 2011 and 2012 had an unprecedented impact on Vermont. Nothing since the Great Flood of 1927 so devastated the state. Damage was severe and widespread. Six Vermonters lost their lives. Fifty thousand homes lost power. More than 3500 homes were damaged or destroyed displacing 1500 families. Transportation and public infrastructure were decimated. Of Vermont's 251 cities and town, 225 reported damage to their municipal infrastructure. In excess of 300 businesses sustained losses and the agricultural impacts included 20,000 acres of flooded farmland, lost crops and livestock. The largest state office complex was overrun by flood waters forcing the evacuation of state employees and clients of Vermont State Hospital. Several state agencies and 1500 workers were displaced.

Nonetheless, more work remains to be done. FEMA and SBA data were the primary sources for identifying unmet needs to be addressed by the state's first allocation. At this point in the recovery of Vermont's individuals, households, businesses and communities, much more specific information is available on the remaining needs that are eligible for CDBG-DR funding and cannot be met by other sources. The proposed uses of the second allocation are based on the following:

- More than 60 letters of interest from eligible entities for proposed projects.
 - A public hearing and public comment.
 - DHCD's experience administering CDBG-DR I
 - Ongoing communication with and reports from state agencies, the Irene Recovery Office, disaster case managers, municipalities, long term recovery committees, regional planning commissions, regional development corporations, and housing nonprofits.
 - Need to use and build local capacity to apply and administer CDBG-DR funds in compliance with HUD requirements.
- To this information the State applied the overarching goals of meeting the most pressing needs, maximizing benefits, leveraging other sources and rebuilding stronger and safer. This Action Plan also proposes uses that meet HUD's requirement that the funds be directed to the most impacted counties — Washington, Windsor and Windham. It outlines activities that ensure the primary beneficiaries are low and moderate income populations and can be completed within the required two year timeframe.

Recovery Needs:

The Agency asked HUD to obligate only \$13,232,000 or approximately 74% of the total \$17,932,000 in CDBG-DR2 funds allocated to Vermont at this time. As projects get underway, the Agency will amend this Partial Action Plan and request that HUD obligate the additional funds, thus starting a new two year expenditure timeline for the additional funds requested.

This plan proposes activities and a method of distribution based on the following assessment of unmet needs in the areas of housing, economic recovery and infrastructure. The analysis focuses on the needs of low and moderate income persons in the most severely impacted counties. (CDBG-DR II funds may be used to address disaster needs in any county that received a disaster declaration but HUD requires that no less than 80% of the allocation be used in Washington, Windsor and Windham.) It also considers HUD requirements regarding eligible activities and the two year expenditure period. Sources relied upon for this assessment include more than 60 project proposals submitted to DHCD in response to a request for letters of interest based on remaining needs and CDBG-DR eligibility criteria. This request was distributed widely to municipalities, state and local officials and organizations engaged in recovery efforts, DHCD's partner agencies, and through the Department's distribution lists for its ongoing CDBG program, the Vermont Community Development Program.

DHCD received indications of interest for approximately \$43 million in projects, - more than twice the \$17.9 million available. CDBG-DR II will be used for longer term recovery and resilience efforts. As noted earlier, existing sources are insufficient to meet the remaining need to relocate and redevelop impacted affordable housing out of floodplains. The most urgent of these projects is a public

housing authority property in Brattleboro, which provides 80 units of affordable housing for the elderly and disabled. It was severely damaged by Irene and remains in harm's way. It is a high priority for the Brattleboro Housing Authority, the community and the State to address this life and safety issue by redeveloping the units outside of the flood hazard area. This plan includes substantial funding (\$5 million) for this critical project. The State was very fortunate in that the other Public Housing Authorities did not suffer any damage as a result of Tropical Storm Irene or the other Storms listed in the Federal Register for this allocation.

Based on data collected by its disaster recovery coordinator, the Vermont Agency of Agriculture estimates remaining needs related to agricultural impacts at approximately \$2 million. This Action Plan proposes dedicating \$3 million for business assistance which will include grants for farms.

National Objective	Target	Actual
Low/Mod	\$6,616,000.00	\$8,078,339.00

Overall Progress Narrative:

This is our first Quarterly report for the CDBG-DR2 allocation. HUD signed our Grant Agreement as of December 10, 2013 to start the two year clock on our Partial Action Plan for \$13,232,000. We entered our Action Plan into the DRGR and posted it to the Agency website and developed our Action Plan Performance Indicators for Projected expenditures, units, linear feet of infrastructure, and number of jobs to be retained/created. We made our initial draw of Administrative funds, which included pre-award expenditures as of February 13, 2014 in the amount of

\$72,475.97. Through the end of the quarter, we have drawn a total of \$168,188.73 in Administrative funds. The Administrative expenditures included a contract for assisting municipalities with unmet infrastructure needs as a result of the major disasters in Vermont in 2011 and 2012 with pre-development technical assistance for project scoping, site visits and developing preliminary cost estimates to prepare federally compliant bids. A major activity during this past quarter was working with the HUD Office of the Inspector General Auditors. The entrance conference was conducted as of January 7, 2014 and the two Senior Auditors remained with us every week from Tuesday through Thursday, continuing on into the next quarter. The focus was an Audit survey reviewing Administrative expenditures, pre-award expenditure authorization, the initial announcement of the CDBG-DR2 allocation, the Citizen Participation process, the Action Plan allocation, and procedures for reallocation if projects are not performing in a timely manner.

Project Summary

Activity Description:

To provide technical assistance, grants and/or loans to businesses to for remaining unmet needs such as equipment replacement, structural repairs, working capital needs. Economic Recovery for flood impacted businesses remains a top priority for the state. Surveys conducted continue to show that flood impacted businesses have remaining un-met needs and further disaster recovery assistance is needed. To ensure a full recovery for the most impacted businesses and to support the economic health of the most impacted communities, DHCD will continue to partner with regional economic service providers to assist those businesses with remaining unmet needs. To provide direct assistance to flood impacted business including farms by providing technical assistance, grants and loans to businesses with remaining unmet needs as a result of declared disasters. This business assistance program will be administered by the existing partnership of regional economic development organizations formed after Tropical Storm Irene.

Activity Description:

This activity is to fund Replacement housing for the Brattleboro Housing Authority, Melrose Terrace that is located in a Floodplain and was severely impacted during Tropical Storm Irene where all the residents had to be temporarily relocated. This replacement housing will provide for a long-term sustainable scenario for the tenants and the Housing Authority. HUD Officials have been working in tandem with the State and the Housing Authority to ensure the success of this project to secure the necessary funding. The Brattleboro Housing Authority has teamed with one of the State's largest most experienced housing developers, Housing Vermont to assist with the New Market Tax Credit Program and other equity features.

Location Description:

Red Clover Commons - off State Route 5 in Brattleboro. 464 Canal Street, Brattleboro, VT 05301. This site is near the Hospital, the main Grocery store and Pharmacy, all amenities to support the tenants within walking distance.

Activity Description:

CDBG-DR 2 funding combined with the previous CDBG-DR 1 allocation and state general funds through the Vermont Housing and Conservation Board will largely satisfy the remaining unmet needs for "buy-outs". By making this commitment, the state will maximize participation in the FEMA "buyouts" and at the same time assist those unable to access FEMA funding. This gives those most affected by flooding a better chance at full recovery and removes properties from danger and reduces future impacts from flooding, thus fostering responsible flood plain management.

CDBG-DR 2 funding will be used to assist communities and property owners meet the FEMA required 25% match and support FEMA-denied property "buy-outs" at 75% of the pre-flood assessed property value statewide. In addition, a small portion of these funds will support Brownfield clean-up on "buy-out" properties and land restoration once the demo and clearance of the parcels has been completed to provide community green space and/or limited recreational facilities in accordance with the deed restrictions to maintain in perpetuity any "buyout" property for a use that is compatible with open space, recreational, or wetlands management practices.

Residential buyouts in targeted counties of Washington, Windsor, and Windham counties.

Activity Description:

To provide assistance to businesses to meet remaining unmet needs in the form of technical assistance, grants, and/or loans for equipment replacement, structural repairs and working capital needs. Economic Recovery for flood impacted businesses remains a top priority for the state. Surveys conducted continue to show that flood impacted businesses have remaining un-met needs and further disaster recovery assistance is needed. To ensure a full recovery for the most impacted businesses and to support the economic health of the most impacted communities, DHCD will continue to partner with regional economic service providers to assist those businesses with remaining unmet needs. To provide direct assistance to flood impacted business including farms by providing technical assistance, grants and loans to businesses with remaining unmet needs as a result of declared disasters. This business assistance program will be administered by the existing partnership of regional economic development organizations formed after Tropical Storm Irene.

Location Description:

Flood impacted businesses located in non-targeted counties, such as Orange county

Activity Progress Narrative:

Activity Description:

Residential buyouts to assist homeowners that are below 80% of area median income levels. These funds will be used as the 25% match to the Hazard Mitigation Grant Program (HMGP).

Funds will be used to provide the 25% match for the Hazard Mitigation Grant Program total project costs of these commercial properties to buy them out to clear the land to remain forever green space.

Two Rivers Ottaquechee Regional Commission (TRORC) will serve as the lead organization to administer the delivery of this program, working through several of the other Regional Planning Commissions to assist in the necessary field work and providing technical assistance to municipalities specific to their respective regions, and to assist in the actual closings with the business owners, municipalities and the Hazard Mitigation Grant Program (HMGP). The State will be working closely with TRORC to provide draft documents, subgrant agreements, duplication of benefit documentation and ongoing technical assistance and oversight monitoring of the program.

Location Description:

All other counties with the exception of Washington, Windsor and Windham counties (targeted counties).

Match Contributed	\$0.00	\$0.00

Activity Description:

Provide staff oversight and administration of the Program for the non-targeted 20% allocation of the funding to ensure full compliance with all the rules and regulations.

Location Description:

Primarily at the main office location of One National Life Drive; however, the staff will be required to conduct onsite monitoring visits through out the State.

Activity Progress Narrative:

The State made a conscientious decision to allocate the Administration funds in an 80%/20% split. The overall narrative will be the same for both.

Staff has met to design/update the Fair Housing core training requirements for the next upcoming mandated municipal/developer training to be held in late spring or early summer. The Fair Housing Training is a requirement that the appropriate municipal official/developer must attend every three years as a grant condition.

Staff continue to provide day-to-day technical assistance to applicants answering questions specific to the regulations of the Disaster Recovery funds. Such as, flood insurance for the businesses, guiding grantees through the environmental review processes, and procurement requirements.

Staff conducted onsite visits to review potential projects for eligibility, received applications through the online Intelligrants system and scored them to present to the CD Board for review and recommendation to the Secretary of the Agency.

Town of Warren	\$0.00	\$0.00
Match Contributed	\$0.00	\$0.00

Activity Description:

The Town of Warren requests \$186,792 in CDBG-DR II funds to replace the hydraulically inadequate 4' Plunkton Road culvert, which was severely damaged during Tropical Storm Irene, with a 12' x 6' x 70' long open bottom arch structure to prevent future flooding events from cutting off residents on both sides of the culvert. The road was completely washed out by Irene leaving an open crater sliced into the road. A proper solution was not possible at the time of the washout and repairs were made quickly to assist residents from Granville, Hancock and Rochester who were cut off from vital services.

Location Description:

The culvert is located 0.7 miles north of Plunkton Road's intersection with Vermont Route 100.

Activity Progress Narrative:

No activity to report.

Total Funds Expended	\$0.00	\$0.00
Town of West Windsor	\$0.00	\$0.00
Match Contributed	\$0.00	\$0.00

Activity Description:

The Village of Brownsville, located in the Town of West Windsor, was severely affected by the flooding of the Mill Brook during Tropical Storm Irene. The Town is requesting CDBG-DR funds to construct a new municipal wastewater system to serve two LMI residential units in the Village of Brownsville. The planned wastewater system will consist of two 8" gravity sewer lines that will run along Route 44 and the Brownsville-Hartland Road, and will require two pump stations. The proposed sewer lines will connect to the existing wastewater system of the former Mount Ascutney Mountain Resort, which in turn is connected to the Town of Windsor's municipal wastewater system.

Location Description:

The location of the project is in the Mill Brook area in the Village of Brownsville, located at the base of the former Ascutney Mountain Resort and within the Town of West Windsor. More specifically, the wastewater system line will run along Route 44 and the Brownsville-Hartland Road.

Activity Progress Narrative:

Award made as of 3/12/2014 - no other activity to report.

Activity Description:

The Village of Brownsville, located in the Town of West Windsor, was severely affected by the flooding of the Mill Brook during Tropical Storm Irene. The Town is requesting CDBG-DR funds to construct a new municipal wastewater system to serve 29 equivalent users in the Village of Brownsville (13 residential units, 4 commercial units, and 14 municipal units). The planned wastewater system will consist of two 8" gravity sewer lines that will run along Route 44 and the Brownsville-Hartland Road, and will require two pump stations. The proposed sewer lines will connect to the existing wastewater system of the former Mount Ascutney Mountain Resort, which in turn is connected to the Town of Windsor's municipal wastewater system.
