Narratives

Disaster Damage:

Tropical Storm Irene and the other flooding events of 2011 and 2012 had an unprecedented impact on Vermont. Nothing since the Great Flood of 1927 so devastated the state. Damage was severe and widespread. Six Vermonters lost their lives. Fifty thousand homes lost power. More than 3500 homes were damaged or destroyed displacing 1500 families. Transportation and public infrastructure were decimated. Of Vermont's 251 cities and town, 225 reported damage to their municipal infrastructure. In excess of 300 businesses sustained losses and the agricultural impacts included 20,000 acres of flooded farmland, lost crops and livestock. The largest state office complex was overrun by flood waters forcing the evacuation of state employees and clients of Vermont State Hospital. Several state agencies and 1500 workers were displaced.

Nonetheless, more work remains to be done. FEMA and SBA data were the primary sources for identifying unmet needs to be addressed by the state's first allocation. At this point in the recovery of Vermont's individuals, households, businesses and communities, much more specific information is available on the remaining needs that are eligible for CDBG-DR funding and cannot be met by other sources. The proposed uses of the second allocation are based on the following:

- '
- More than 60 letters of interest from eligible entities for proposed projects.
- '
- A public hearing and public comment.
- '
- DHCD's experience administering CDBG-DR I
- '
- Ongoing communication with and reports from state agencies, the Irene Recovery Office, disaster case managers, municipalities, long term recovery committees, regional planning commissions, regional development corporations, and housing nonprofits.
- '
- Need to use and build local capacity to apply and administer CDBG-DR funds in compliance with HUD requirements.
- '

To this information the State applied the overarching goals of meeting the most pressing needs, maximizing benefits, leveraging other sources and rebuilding stronger and safer. This Action Plan also proposes uses that meet HUD's requirement that the funds be directed to the most impacted counties – Washington, Windsor and Windham. It outlines activities that ensure the primary beneficiaries are low and moderate income populations and can be completed within the required two year timeframe.

Recovery Needs:

The Agency asked HUD to obligate only \$13,232,000 or approximately 74% of the total \$17,932,000 in CDBG-DR2 funds allocated to Vermont at this time. As projects get underway, the Agency will amend this Partial Action Plan and request that HUD obligate the additional funds, thus starting a new two year expenditure timeline for the additional funds requested.

This plan proposes activities and a method of distribution based on the following assessment of unmet needs in the areas of housing, economic recovery and infrastructure. The analysis focuses on the needs of low and moderate income persons in the most severely impacted counties. (CDBG-DR II funds may be used to address disaster needs in any county that received a disaster declaration but HUD requires that no less than 80% of the allocation be used in Washington, Windsor and Windham.) It also considers HUD requirements regarding eligible activities and the two year expenditure period. Sources relied upon for this

assessment include more than 60 project proposals submitted to DHCD in response to a request for letters of interest based on remaining needs and CDBG-DR eligibility criteria. This request was distributed widely to municipalities, state and local officials and organizations engaged in recovery efforts, DHCD's partner agencies, and through the Department's distribution lists for its ongoing CDBG program, the Vermont Community Development Program.

DHCD received indications of interest for approximately \$43 million in projects, - more than twice the \$17.9 million available. CDBG-DR II will be used for longer term recovery and resilience efforts. As noted earlier, existing sources are insufficient to meet the remaining need to relocate and redevelop impacted affordable housing out of floodplains. The most urgent of these projects is a public housing authority property in Brattleboro, which provides 80 units of affordable housing for the elderly and disabled. It was severely damaged by Irene and remains in harm's way. It is a high priority for the Brattleboro Housing Authority, the community and the State to address this life and safety issue by redeveloping the units outside of the flood hazard area. This plan includes substantial funding (\$5 million) for this critical project. The State was very fortunate in that the other Public Housing Authorities did not suffer any damage as a result of Tropical Storm Irene or the other Storms listed in the Federal Register for this allocation.

Based on data collected by its disaster recovery coordinator, the Vermont Agency of Agriculture estimates remaining needs related to agricultural impacts at approximately \$2 million. This Action Plan proposes dedicating \$3 million for business assistance which will include grants for farms.

Overall Progress Narrative:

Please note we are submitting the Quarterly report as of August 1, 2017 due to the Field Office delay in not approving the Action Plan until August 1, 2017.

With the granting of the extension from HUD for some of the DR2 funded projects, this quarter was a busy time of executing Amended Grant Agreements. Staff continued to be busy with technical assistance visits with the Town of Northfield, the Town of Waitsfield, the Town of Hancock, the Town of Cambridge, the Town of Stockbridge, and the Town of West Windsor.

Some projects, like the Town of West Windsor's Sewer Construction Project, were for the most part completed during late winter, but the Town had yet to draw all the funds and conduct a Final Public Hearing. For those projects now completed with all funds drawn, Final Program Reports have been submitted and the Agency of Commerce & Community Development staff are working to review the Reports and issue Final Program Report Clearance letters. In some cases, the Certificate of Program Completion cannot be issued due to pending Single Audits.

During this quarter, there were also new projects created in the Action Plan to account for the additional extensions approved by HUD. Those included the RD1 E2 Buyouts-HMGP Match and non-eligible FEMA E2 and the RD-1 E2 Brattleboro Housing Authority. The new Activities were set up with the unexpended funds from the original projects/activities to separate them from the previously approved extensions.

Vermont's construction season is in full swing now and almost all the projects remaining have begun work and will be working furiously through the late fall to complete as much as possible before winter. There should only be about 4-6 municipal infrastructure projects and the buyouts pending after the end of next Quarter.

In addition, staff was preparing for the HUD monitoring visit of July 19-21, 2017 gathering documents, policies and procedures and forwarding to the HUD staff to review prior to the actual onsite visit.

Activity Description:

EXPENDITURE DEADLINE EXTENSION

Beneficiaries reported under original activity.

This project will fund the replacement housing for the Brattleboro Housing Authority, Melrose Terrace, that is located in a Floodplain. Melrose Terrace was severely impacted during Tropical Storm Irene and all the residents had to be temporarily relocated. This replacement housing will provide for a long-term sustainable scenario for the tenants and the Housing Authority. HUD Officials have been working in tandem with the State and the Housing Authority to ensure the success of this project and to ensure the necessary funding. The Brattleboro Housing Authority has teamed with one of the State's largest and most experienced housing developers, Housing Vermont, to assist with the New Market Tax Credit Program and other equity features.

Location Description:

Red Clover Commons is located at 464 Canal Street, Brattleboro, VT. The site is near the hospital, the main grocery store, pharmacy, and all necessary amenities to support the tenants are within walking distance.

Activity Progress Narrative:

Funds in this Activity have been deallocated (\$188,027.00) and moved to a new Activity, RD-1-E2 Red Clover IG-00005 E2, which is a continuation of this project with an extension of time to complete the project. No further progress will be reported in this Activity but all progress will now be reported under the RD-1-E2 Red Clover IG-00005 E2 Activity. All beneficiaries have been reported under this Activity and there will be no further beneficiaries to report as all outstanding work to be performed under the grant is related to the demolition of flood-impacted properties.

Activity Description:

CDBG-DR 2 funding combined with the previous CDBG-DR 1 allocation and state general funds through the Vermont Housing and Conservation Board will largely satisfy the remaining unmet needs for buyouts. By making this commitment, the state will maximize participation in the FEMA buyouts and at the same time assist those unable to access FEMA funding. This gives those most affected by flooding a better chance at full recovery and removes properties from danger and reduces future impacts from flooding, thus fostering responsible flood plain management.

CDBG-DR 2 funding will be used to assist communities and property owners meet the FEMA required 25% match and support FEMA-denied property buyouts at 75% of the pre-flood assessed property value statewide. In addition, a small portion of these funds will support Brownfield clean-up on buyout properties and land restoration, once the demo and clearance of the parcels has been completed, to provide community green space and/or limited recreational facilities in accordance with the deed restrictions to maintain in perpetuity any buyout property for a use that is compatible with open space, recreational, or wetlands management practices.

Activity Description:

EXPENDITURE DEADLINE EXTENSION

Beneficiaries reported under original activity.

Funds will be used to provide the 25% match for the Hazard Mitigation Grant Program (HMGP) total projects costs of these properties, which were impacted by Tropical Storm Irene, to buy them out to clear the land to remain forever green space. Two Rivers Ottawaquechee Regional Commission (TRORC) will serve as the lead organization to administer the delivery of this program, working through several of the other Regional Planning Commissions to assist in the necessary field work and providing technical assistance to municipalities specific to their respective regions, and to assist in the actual closings with the property owners, municipalities and the HMGP. The State will be working closely with TRORC to provide draft documents, subgrant agreements, duplication of benefit documentation and ongoing technical assistance and oversight monitoring of the program.

Location Description:

Residential buyouts in any county other than Washington, Windsor, and Windham counties.

Activity Progress Narrative:

Due to HUD's granting of an extension of the funding for the Buyouts Program, this Activity was closed and \$17,116 in unexpended funds were moved to a new Activity, RD-1 E2 Res Buyouts Non-Target LMI E2. As a result, no further progress will be reported in this Activity.

Activity Description:

EXPENDITURE DEADLINE EXTENSION

Beneficiaries reported under original activity.

CDBG-DR2 funding combined with the previous CDBG-DR1 allocation and state general funds through Vermont Housing and Conservation Board (VHCB) will largely satisfy the remaining unmet needs for buyouts. By making this commitment, the State will maximize participation in the FEMA buyouts and at the same time assist those unable to access FEMA funding. This gives those most affected by flooding a better chance at full recovery and removes properties from danger and reduces future impacts from flooding, thus fostering responsible flood plain management.

CDBG-DR2 funding will be used to assist communities and property owners meet the FEMA required 25% match and support FEMA-denied property buyouts at 75% of the pre-flood assessed property value statewide. In addition, a small portion of these funds will support Brownfield clean-up on buyout properties and land restoration, once the demo and clearance of the parcels has been completed, to provide community green space and/or limited recreational facilities in accordance with the deed restrictions to maintain in perpetuity any buyout property for a use that is compatible with open space, recreational, or wetlands management practices.

Location Description:

Residential properties in Washington, Windsor, or Windham Counties.

Activity Progress Narrative:

Due to HUD's granting of an extension of the funding for the Buyouts Program, this Activity was closed and \$420,997 in unexpended funds were moved to a new Activity, RD-1 E2 Res Buyouts Wash/Winds/Windh LMI E2. As a result, no further progress will be reported in this Activity.

Activity Description:

BENEFICIARIES will be reported under the original activity Replacement Housing for the Brattleboro Housing Authority, Melrose Terrace that was severely impacted by Tropical Storm Irene. Also, to assist with the demolition and clearance of the four most critical buildings in the Floodway at Melrose Terrace to restore the floodway.

Location Description:

Fairground Road; Brattleboro, Vermont

Activity Progress Narrative:

There was a Ribbon Cutting Ceremony held at the Red Clover Commons building on May 25th with dignitaries from across Vermont and representatives of HUD in attendance. One of the highlights of the new building is the geothermal system, which is performing well and keeping the building cool with minimal energy consumption. The demolition of the Melrose Terrace buildings is on hold until the PDMA grant is finalized. An Amendment to extend the End Date of the Grant Agreement has been offered and is expected to be finalized in early July 2017, to extend the End Date to 12/31/2018. Beneficiaries were previously reported under teh RD-1-E Red Clover IG-00005 Activity.

Activity Description:

To provide assistance to businesses to meet remaining unmet needs in the form of technical assistance, grants, and/or loans for equipment replacement, structural repairs and working capital needs. Economic Recovery for flood impacted businesses remains a top priority for the state. Surveys conducted continue to show that flood impacted businesses have remaining un-met needs and further disaster recovery assistance is needed. To ensure a full recovery for the most impacted businesses and to support the economic health of the most impacted communities, DHCD will continue to partner with regional economic service providers to assist those businesses with remaining unmet needs. To provide direct assistance to flood impacted business including farms by providing technical assistance, grants and loans to businesses with remaining unmet needs as a result of declared disasters. This business assistance program will be administered by the existing partnership of regional economic development organizations formed after Tropical Storm Irene.

Location Description:

Businesses located in Bennington county (non-targeted)

Activity Progress Narrative:

Grant completed and closed in previous QPR.

Activity Description:

EXPENDITURE DEADLINE EXTENSION

Beneficiaries reported under original activity.

On August 29, 2011, Tropical Storm Irene brought one foot of flood waters into the Town Office building, resulting in the evacuation and containment of the building for several months. The building was then stabilized and work was done to prevent further deterioration and mold growth. The Town will use CDBG-DR2 funds, combined with other funds, to rehab and repair the building and relocate the town offices back into this historic building.

Location Description:

The Brandon Town Office is located at 49 Center Street in Brandon, Vermont.

Activity Progress Narrative:

This grant was completed on February 15, 2017, but the completion date was not previously reported in the QPR.

EXPENDITURE DEADLINE EXTENSION

Beneficiaries reported under original activity.

This is a Class 3 road that has been subject to repeated flooding and that was severely impacted by Tropical Storm Irene. The Town will use CDBG-DR2 funds for an innovative concept practiced in the western part of the country, but never implemented or tested in Vermont - lowering and rebuilding the road to allow floodwaters to pass. Erosion will be mitigated along a bend in the White River, as well as mitigating damage to the roadway, a farmer's field, and potentially a nearby residence.

Location Description:

Bean's Bridge Road, Rochester, Vermont.

Activity Progress Narrative:

Grant completed and closed in previous QPR.

Match Contributed	\$0.00	\$30,690.00

Activity Description:

The project consists of replacing three culverts: two on Walker Road and one on Brookline Road that were washed out during Tropical Storm Irene. The one on Brookline Road serves as a major rural collector of a Class 07 paved highway on which the Athens municipal office is located. The three culverts are designed to meet current state standards which will alleviate the previously poorly designed structures that ultimately presented a life-threatening situation.

Location Description:

Walker Road; Class 9 Road Vermont Route 35
 Brookline Road; Class 7 Road

Activity Description:

EXPENDITURE DEADLINE EXTENSION

On August 29, 2011, Tropical Storm Irene brought one foot of flood waters into the Town Office building, resulting in the evacuation and containment of the building for several months. The building was then stabilized and work was done to prevent further deterioration and mold growth. The Town will use CDBG-DR2 funds, combined with other funds, to rehab and repair the building and relocate the town offices back into this historic building.

Location Description:

The Brandon Town Office is located at 49 Center Street in Brandon, Vermont.

Activity Progress Narrative:

This grant was completed on February 15, 2017, but the completion date was not previously reported in the QPR.

Town of Springfield	Rehabilitation/reconstruction of public facilities	RD-2 Muni Infrastructure Recovery & Repair	RD-2 Town of Springfield CONTINUATION IG-00051	RD-2 Meadow Drive stormwater bank stabilization	General Account

Activity Description:

Funds will be used to construct a stormwater collection system on Meadow Drive, in Springfield, VT. The system is designed to prevent future damage to private property caused by stormwater runoff during rain events. During Tropical Storm Irene, the erosion was dramatic and was impacting the residential septic systems. It will redirect the stormwater away from private property on the western side of Meadow Drive into an existing stormwater collection system. The proposed stormwater collection system will consist of 48" diameter storage piping to provide capacity for detention of the stormwater beginning at 14 Meadow Drive, continuing 800 linear feet, and will include 6 catch basins to capture flow from additional low points north to the intersection of Pedden Road. Here the new system will be connected to the existing stormwater collection system that discharges into the Black River through a 30 inch diameter culvert. The stored flood water is to be released in a manner that will not inundate the existing stormwater collection system, and will prevent future damage to private property caused by stormwater runoff.

Location Description:

Western side of Meadow Drive, predominantly between two residential properties.

Activity Progress Narrative:

This grant was completed on August 10, 2016, but the completion date was not previously reported in the QPR.

Most Impacted and Distressed Expended	\$0.00	\$0.00
Match Contributed	\$0.00	\$20,637.00

Activity Description:

The Town of Warren requests \$186,792 in CDBG-DR II funds to replace the hydraulically inadequate 4' Plunkton Road culvert, which was severely damaged during Tropical Storm Irene, with a 12'x 6' x 3' x 70' long open bottom arch structure to prevent future flooding events from cutting off residents on both sides of the culvert. The road was completely washed out by Irene leaving an open crater sliced into the road. A proper solution was not possible at the time of the washout and repairs were made quickly to assist residents from Granville, Hancock and Rochester who were cut off from vital services.

Location Description:

The culvert is located 0.7 miles north of Plunkton Road's intersection with Vermont Route 100.

Activity Progress Narrative:

Grant completed and closed in previous QPR.

Activity Description:

Whitingham Bridge #47 is in Jacksonville and is the farthest downstream of three relatively closely spaced town bridges across the East Branch North River. It extends from Vermont Route 112 to one of the few retail businesses in the Village. Tropical Storm Irene destroyed the farthest upstream of the three bridges, and carried it over the middle bridge and into bridge #47. Bridge # 47 was severely damaged but was repaired sufficiently to be placed into service. It needs full replacement of the deck and guardrails to be safe and fully serviceable.

The project will involve complete removal and replacement of the bridge deck and guardrails. The abutments and steel beams will not be altered.

Location Description:

Whitingham Bridge 47 is located at 201 Vermont Route 112, Whitingham VT (Jacksonville Village). Windham County FIPS: 50025.

Activity Progress Narrative:

Grant completed and closed in previous QPR.

Continuation of activity funded under Round 1 and Round 2-E as BHA Red Clover Commons Housing

Activity Progress Narrative:

A Ribbon Cutting Ceremony was held on May 25th, with dignitaries from across Vermont and representatives of HUD in attendance. One of the highlights of the new building is the geothermal system, which is performing well and is keeping the building cool with minimal energy consumption. The demolition of the Melrose Terrace buildings is on hold until the PDMA grant is finalized. FEMA is currently undertaking the environmental review for the demolition of the buildings at Melrose Terrace. The proposed date of completion is September 2017.

Activity Description:

CDBG-DR2 RD-2 funding, combined with the previous CDBG-DR1 and CDBG-DR2 RD-1 allocation and state general funds through the Vermont Housing and Conservation Board (VHCB) will largely satisfy the remaining unmet needs for buyouts. By making this commitment, the state will maximize participation in the FEMA buyouts and at the same time assist those unable to access FEMA funding. This gives those most affected by flooding a better chance at full recovery and removes properties from danger and reduces future impacts from flooding, thus fostering responsible flood plain management. Funding will be used to assist communities and property owners meet the FEMA required 25% match and support FEMA-denied property buyouts at 75% of the pre-flood assessed property value statewide. In addition, a small portion of these funds will support land restoration once the demo and clearance of the parcels has been completed to provide community green space and/or limited recreational facilities in accordance with the deed restrictions to maintain in perpetuity any buyout property for a use that is compatible with open space, recreational, or wetlands management practices.

Location Description:

Washington, Windsor, and Windham Counties

Activity Description:

The project will allow the City of Montpelier to stabilize and rebuild the One Taylor Street Retaining Wall that protects the site at 1 Taylor Street, Montpelier, VT. Two flooding events (May 2011 and Tropical Storm Irene in August 2011) exacerbated the deteriorating condition of the Wall as large cut granite blocks at the base of the wall were completely dislocated. Because One Taylor Street is the site of the former home to a metal salvage yard, the soils require specific management practices to meet requirements of the approved CAP. Erosion of soils would result in contamination and sedimentation of the Winooski River.

Location Description:

1 Taylor Street, Montpelier, VT

Activity Progress Narrative:

The One Taylor Street River Wall Reconstruction Project was substantially completed in March 2017. With the project now fully completed and all funds expended, the City of Montpelier has submitted a Final Program Report, which the ACCD staff is currently reviewing.

Activity Description:

PROJECT CONTINUATION
On August 29, 2011, Tropical Storm Irene brought one foot of flood waters into the Town Office building, resulting in the evacuation and containment of the building for several months. The building was then stabilized and work was done to prevent further deterioration and mold growth. The Town will use CDBG-DR2 funds, combined with other funds, to rehab and repair the building and relocate the town offices back into this historic building.

Location Description:

Project is located at 49 Center Street in Brandon, VT.

Activity Progress Narrative:

This grant was completed on February 15, 2017, but the completion date was not previously reported in the QPR.

Activity Description:

The Town of Cambridge is tackling two projects under this grant. The first is replacing the Greenway/Railroad Bridge over the Brewster River with a properly sized and proportioned bridge and the other project is replacing two under-sized culverts under Route 15.

Location Description:

Greenway/Railroad Bridge and Route 15.

Activity Progress Narrative:

The Town of Cambridge has requested an extension of the End Date of the grant until September 30, 2018. The amendment request is under review by ACCD staff.

For the bridge aspect of the project, the Final Plans have been completed, the Environmental Release issued, the notice for bids has been advertised, pre-bid meeting held, and the bid opening was held on June 16, 2017. The construction contract should be fully executed in the early part of the 3rd quarter, early July.

For the culvert aspect of the project, the Final Plans have been completed, easements with property owners are being finalized, the Final Notice for the Environmental Review process has been published, the notice for bids is prepared and the bid process should be complete in early July, with the construction contract executed at that time.

Town of Northfield	\$0.00	\$0.00
Most Impacted and Distressed Expended	\$0.00	\$0.00
Match Contributed	\$0.00	\$0.00

Activity Description:

The funds will be used in conjunction with other resources to redevelop a 5 acre parcel and reduce the flood risk to the Water Street neighborhood. The Town wants to enhance the natural floodplain function in this stretch of the Dog River, establish a substantial vegetated buffer, and provide recreation amenities for the neighborhood. The property will be subject to FEMA's standard deed restrictions and a conservation easement held by the Vermont Housing and Conservation Board (VHCB). A hydraulic and dyrologic study has been completed and the town will use one of the four proposals for ecological restoration and enhanced floodplain function in the adjacent river system. The Park will include floodable recreational amenities located near the street, such as volleyball courts, picnic tables, and an organic playscape as well as series of walking paths with landscaping. The Town intends to work with the neighborhood and other stakeholders to ensure the final design is acceptable to the neighboring residents.

Location Description:

5 acre property formerly known as 339, 355, 389, 405, 435, 449, 465, 483, and 499 Water Street, Northfield, VT.

Activity Progress Narrative:

ACCD staff conducted a technical assistance visit on June 16th to review compliance requirements for this Davis Bacon eligible project.

Bids were received and the lowest bid was accepted from WB Rogers. A pre-construction meeting was held on June 22nd, with the Town, the proeject engineer (Milone and MacBroom), the landscape architect (Greenman Pederson)

and the general contractor present.

Construction is expected to get under way by July 17th and be completed by August 15th, with the exception of planting trees, which may need to occur in September.

Most Impacted and Distressed Expended	\$0.00	\$0.00
Match Contributed	\$0.00	\$38,094.00

Activity Description:

The Town of Readsboro will utilize the funds to fortify and stabilize the failed riverbank and mitigate erosion threats to three homes and municipal infrastructure adjacent to School Street. The majority of the work includes fortifying approximately 375' of riverbank along the Deerfield River adjacent to School Street. To complete the fortification, additional riprap will be placed at the base of the failed slope to minimize future slope erosion. The Town will also install additional armoring on the bed of the river to prevent future undermining during the next large flood as well as re-grade the failed slope to create a more gentle grade which will then be replated to help prevent future erosion.

Location Description:

Deerfield River adjacent to School Street, Readsboro, VT.

Activity Progress Narrative:

This grant was completed on February 17, 2017, but the completion date was not previously reported in the QPR.

Activity Description:

CONTINUATION OF ACTIVITY ORIGINALLY FUNDED UNDER RD-1
 Beneficiaries reported under original activity.
 Funds will be used to construct a stormwater collection system on Meadow Drive, in Springfield, VT. The system is designed to prevent future damage to private property caused by stormwater runoff during rain events. During Tropical Storm Irene, the erosion was dramatic and was impacting the residential septic systems. It will redirect the stormwater away from private property on the western side of Meadow Drive into an existing stormwater collection system. The proposed stormwater collection system will consist of 48" diameter storage piping to provide capacity for detention of the stormwater beginning at 14 Meadow Drive, continuing 800 linear feet, and will include 6 catch basins to capture flow from additional low points north to the intersection of Pedden Road. Here the new system will be connected to the existing stormwater collection system that discharges into the Black River through a 30 inch diameter culvert. The stored flood water is to be released in a manner that will not inundate the existing stormwater collection system, and will prevent future damage to private property caused by stormwater runoff.

Location Description:

Western side of Meadow Drive in the Town of Springfield.

Activity Progress Narrative:

This grant was completed on August 10, 2016, but the completion date was not previously reported in the QPR.

Most Impacted and Distressed Expended	\$0.00	\$0.00
Match Contributed	\$22,729.00	\$22,729.00

Activity Description:

The Town of Stockbridge will use CDBG-DR funds to complete the design and relocation of approximately 900 linear feet of Taggart Hill Road and associated utilities. The project, designed with support from Vermont Department of Conservation and Agency of Transportation, will make essential drainage improvements and armor the bank of Taggart Hill Road. Additionally, the stream bed of Taggart Brook will be widened to increase the hydraulic capacity of the stream, resulting in a less constrained and more flood resilient road during extreme weather. The road is abutted on both sides by the Lew Newell Wildlife Management Areas, which is owned by the State of Vermont.

Location Description:

Taggart Hill Road, located off of Vermont Route 107.

Activity Progress Narrative:

The final Vermont Fish & Wildlife and Vermont Stream Alteration Permit have been secured. The utility pole move was completed with assistance from Green Mountain Power and FairPoint Communications and construction has now begun on the lower road embankment.

Most Impacted and Distressed Expended	\$0.00	\$0.00
Match Contributed	\$12,343.00	\$12,343.00

Activity Description:

The Town of Waitsfield will use CDBG-DR funds to construct the .05 acre Waitsfield Pocket Park in the Bridge Street business district along the Mad River, adjacent to the Waitsfield Covered Bridge. The Park will be cohesively integrated into the historic covered bridge and street access areas and designed to enhance the visual quality of the area, accent the river and guide access to these resources in an environmentally sound manner. The Park will be an attractive riverfront gathering space for pedestrians that enables safe enjoyment of the unique covered bridge and river vista within easy walking distance from the downtown core.

Location Description:

50 Bridge Street, Waitsfield, VT

Activity Progress Narrative:

The Town of Waitsfield held a mandatory pre-bid meeting with project site walk-through on April 6, 2017, with bids due by April 19th. The Grass Gauchos were the lowest bidders and a contract between the Town and the Grass Gauchos was executed. The project completed in a relatively short amount of time, just a little over two weeks. A Certificate of Substantial Completion was signed on June 27, 2017, with a number of punch list items to be completed. Those punch list items included benches, trash receptacles, railing, and signage. The Final Public Hearing was held on June 27th, with a No Rise Certification issued on June 28th. The park was officially opened to the public at 5:00 pm on June 28th, followed almost immediately by a weekend

storm that produced flooding and testing the resiliency of the park. It passed!
 The project came in substantially below budget with only 66% of municipal/Other Resources spent and 54% of the CDBG-DR funds expended. An official Grand Opening is planned for a date in August that will coincide with the 6th anniversary of Tropical Storm Irene.

Activity Description:

The Town of West Windsor will use CDBG-DR funds to construct a new municipal wastewater system to serve 33 equivalent users in the village of Brownsville. The planned system will consist of two 8" gravity sewer lines that will require two pump stations. The proposed sewer lines will connect to the existing wastewater system of the former Mount Ascutney Mountain Resort, which in turn is connected to the Town of Windsor's municipal wastewater system.

Location Description:

The planned wastewater system will consist of sewer lines that will run along Route 44 and the Brownsville-Hartland Road in the Village of Brownsville, Town of West Windsor.

Activity Progress Narrative:

This project was split to allow for the capture of LMI benefit, where appropriate. Narrative for both Activities is the same. The project has completed and the Town of West Windsor was able to hold a Final Public Hearing on April 24, 2017. ACCD staff will work with the Town to approve the Final Program Report and issue a Clearance letter, along with a Certificate of Program Completion once the Single Audit is reviewed and cleared.

Total Funds Expended	\$138,203.00	\$138,203.00
Waitsfield United Church of Christ	\$138,203.00	\$138,203.00
Most Impacted and Distressed Expended	\$0.00	\$0.00
Match Contributed	\$292,646.00	\$292,646.00

Activity Description:

The Waitsfield United Church of Christ, d/b/a the Village Meeting House will use Disaster Recovery funds to stabilize and flood proof the basement and move all the mechanical and electrical system components out of the basement to locations more than 2 feet above the 100 year flood. This will require a small addition at the rear of the meeting house as well as major reconfiguration and renovation of the lower floor and the existing back wing on the building.

Location Description:

4355 Main Street, Waitsfield, VT

Activity Progress Narrative:

The project is progressing and is substantially complete, with some punch list items remaining. WUCC has requested an Amendment to the Grant Agreement to extend the End Date to September 30th, to allow for wrap up of the grant. Volunteers will be completing the project in the early weeks of the third quarter, with painting and installing flooring.

Match Contributed	\$0.00	\$0.00

Activity Description:

Provide staff oversight and administration of the Program for the non-targeted 20% allocation of the funding to ensure full compliance with all the rules and regulations.

Location Description:

Primarily at the main office located at One National Life Drive in Montpelier; however, the staff will be required to conduct on-site technical assistance and monitoring visits throughout the State.

Activity Progress Narrative:

Admin costs have been split between two Activities, 20% for work performed under the National Objective of Urgent Need and 80% for work performed under the National Objective of Low/Moderate Income (LMI). Narratives are the same for the two Activities.

Agency staff continue to conduct portfolio management for the Disaster Recover projects funded with CDBG-DR funds. As we near the end of the 2nd quarter, some projects have been identified that will need extensions in order to complete the complex projects. Most of those projects were scheduled to close by June 30, 2017, but have been extended to periods ranging from September 30, 2017 to December 31, 2018.

In addition, there has been a flurry of activity around monitoring of the projects that have been moving right along. Spring monitoring included the Waitsfield United Church of Christ's Village Meeting House project and Two Rivers-Ottawaquechee Regional Commission's HMGP Buyouts program.

Technical assistance has been provided to grantees, including the Town of Northfield, the Town of Cabot, and the Town of Waitsfield.

Activity Description:

Commercial properties brownfield clean-up and demolition as part of the buyout in conjunction with HMGP

Location Description:

Washington, Windsor and Windham counties

Activity Progress Narrative:

While there were no funds reported as expended in this quarter under the Activity, there was a closing of 40 Bridge Street in Stockbridge in which the funds were mistakenly drawn from the wrong Activity in DRGR. A voucher revision will be made in the amount of \$133,981 once the Modified Action Plan and the 2nd quarter QPR are approved.

Activity Description:

Funds will be used to provide the 25% match for the Hazard Mitigation Grant Program (HMGP) total projects costs of these properties, which were impacted by Tropical Storm Irene, to buy them out to clear the land to remain forever green space.

Location Description:

Any county other than Washington, Windsor, or Windham

Activity Progress Narrative:

During the second quarter of 2017, under this Activity there was pre-closing assistance to a property located in Hancock. There was also a Phase 2 brownfield assessment at the property. Demolition costs were incurred for a property located at 113 Park Street in Pittsfield.
