Narratives

Disaster Damage:

Tropical Storm Irene and the other flooding events of 2011 and 2012 had an unprecedented impact on Vermont. Nothing since the Great Flood of 1927 so devastated the state. Damage was severe and widespread. Six Vermonters lost their lives. Fifty thousand homes lost power. More than 3500 homes were damaged or destroyed displacing 1500 families. Transportation and public infrastructure were decimated. Of Vermont's 251 cities and town, 225 reported damage to their municipal infrastructure. In excess of 300 businesses sustained losses and the agricultural impacts included 20,000 acres of flooded farmland, lost crops and livestock. The largest state office complex was overrun by flood waters forcing the evacuation of state employees and clients of Vermont State Hospital. Several state agencies and 1500 workers were displaced.

Nonetheless, more work remains to be done. FEMA and SBA data were the primary sources for identifying unmet needs to be addressed by the state's first allocation. At this point in the recovery of Vermont's individuals, households, businesses and communities, much more specific information is available on the remaining needs that are eligible for CDBG-DR funding and cannot be met by other sources. The proposed uses of the second allocation are based on the following:

- More than 60 letters of interest from eligible entities for proposed projects.
- A public hearing and public comment.
- DHCD's experience administering CDBG-DR I
- Ongoing communication with and reports from state agencies, the Irene Recovery Office, disaster case managers, municipalities, long term recovery committees, regional planning commissions, regional development corporations, and housing nonprofits.
- Need to use and build local capacity to apply and administer CDBG-DR funds in compliance with HUD requirements.

To this information the State applied the overarching goals of meeting the most pressing needs, maximizing benefits, leveraging other sources and rebuilding stronger and safer. This Action Plan also proposes uses that meet HUD's requirement that the funds be directed to the most impacted counties — Washington, Windsor and Windham. It outlines activities that ensure the primary beneficiaries are low and moderate income populations and can be completed within the required two year timeframe.

Recovery Needs:

The Agency asked HUD to obligate only \$13,232,000 or approximately 74% of the total \$17,932,000 in CDBG-DR2 funds allocated to Vermont at this time. As projects get underway, the Agency will amend this Partial Action Plan and request that HUD obligate the additional funds, thus starting a new two year expenditure timeline for the additional funds requested.

This plan proposes activities and a method of distribution based on the following assessment of unmet needs in the areas of housing, economic recovery and infrastructure. The analysis focuses on the needs of low and moderate income persons in the most severely impacted counties. (CDBG-DR II funds may be used to address disaster needs in any county that received a disaster declaration but HUD requires that no less than 80% of the allocation be used in Washington, Windsor and Windham.) It also considers HUD requirements regarding eligible activities and the two year expenditure period. Sources relied upon for this assessment include more than 60 project proposals submitted to DHCD in response to a request for letters of interest based on remaining needs and CDBG-DR eligibility criteria. This request was distributed widely to municipalities, state and local officials and organizations engaged in recovery efforts, DHCD's partner agencies, and through the Department's distribution lists for its ongoing CDBG program, the Vermont Community Development Program.

DHCD received indications of interest for approximately \$43 million in projects, - more than twice the \$17.9 million available.

CDBG-DR II will be used for longer term recovery and resilience efforts. As noted earlier, existing sources are insufficient to meet the remaining need to relocate and redevelop impacted affordable housing out of floodplains. The most urgent of these projects is a public housing authority property in Brattleboro, which provides 80 units of affordable housing for the elderly and disabled. It was severely damaged by Irene and remains in harm's way. It is a high priority for the Brattleboro Housing Authority, the community and the State to address this life and safety issue by redeveloping the units outside of the flood hazard area. This plan includes substantial funding (\$5 million) for this critical project. The State was very fortunate in that the other Public Housing Authorities did not suffer any damage as a result of Tropical Storm Irene or the other Storms listed in the Federal Register for this allocation.

Based on data collected by its disaster recovery coordinator, the Vermont Agency of Agriculture estimates remaining needs related to agricultural impacts at approximately \$2 million. This Action Plan proposes dedicating \$3 million for business assistance which will include grants for farms.

Progress Toward Activity Type Targets

Progress Toward National Objective Targets

National Objective	Target	Actual
Low/Mod	\$8,966,000.00	\$9,094,339.00

Overall Progress Narrative:

One of the major activities this quarter was working with and responding to the KPMG auditors conducting the State Single Audit for the major programs. Due to the complexity of the Disaster Recovery program, there were numerous questions and clarifications that were needed.

During this quarter, ACCD staff continued to work with potential applicants, awardees continue to work to meet award conditions, projects progressed, and one project, the Town of Whitingham RD-1 IG-00045, even completed. With many of the projects being municipal infrastructure projects, much of the work now is focused on meeting award conditions so that the municipalities can be in a strong position to put the projects out to bid during the first quarter of 2015, contracts can be awarded in early spring, and the projects can complete by the fall of 2015.

Project Summary

Match Contributed	\$0.00	\$0.00

Activity Description:

This activity is to fund Replacement housing for the Brattleboro Housing Authority, Melrose Terrace that is located in a Floodplain and was severely impacted during Tropical Storm Irene where all the residents had to be temporarily relocated. This replacement housing will provide for a long-term sustainable scenario for the tenants and the Housing Authority. HUD Officials have been working in tandem with the State and the Housing Authority to ensure the success of this project to secure the necessary funding. The Brattleboro Housing Authority has teamed with one of the State's largest most experienced housing developers, Housing Vermont to assist with the New Market Tax Credit Program and other equity features.

Location Description:

Red Clover Commons - off State Route 5 in Brattleboro. 464 Canal Street, Brattleboro, VT 05301. This site is near the Hospital, the main Grocery store and Pharmacy, all amenities to support the tenants within walking distance.

Activity Progress Narrative:

This project is now called Red Clover Limited Partnership, LLC. Staff has been working with the Developer to revise the budget based on additional costs such as providing a \$1 million per incident Fidelity bond coverage for staff writing checks out of the depository account.

As this will be a direct loan between ACCD and Red Clover, we have been working with their lawyer to commence developing the loan documents, subsidy covenants, priority agreements, etc.

The Corrective Action Plan has been approved by DEC, and the environmental release has been issued. Once the closing has taken place on the acquisition of the property, the clean-up and remediation will commence immediately. The closing is slated for late February 2015.

Two Rivers Ottauquechee Regional Commission	\$0.00	\$0.00
Match Contributed	\$0.00	\$0.00

Activity Description:

CDBG-DR 2 funding combined with the previous CDBG-DR 1 allocation and state general funds through the Vermont Housing and Conservation Board will largely satisfy the remaining unmet needs for "buy-outs". By making this commitment, the state will maximize participation in the FEMA "buyouts" and at the same time assist those unable to access FEMA funding. This gives those most affected by flooding a better chance at full recovery and removes properties from danger and reduces future impacts from flooding, thus fostering responsible flood plain management.

CDBG-DR 2 funding will be used to assist communities and property owners meet the FEMA required 25% match and support FEMA-denied property "buy-outs" at 75% of the pre-flood assessed property value statewide. In addition, a small portion of these funds will support Brownfield clean-up on "buy-out" properties and land restoration once the demo and clearance of the parcels has been completed to provide community green space and/or limited recreational facilities in accordance with the deed restrictions to maintain in perpetuity any "buyout" property for a use that is compatible with open space, recreational, or wetlands management practices.

Residential buyouts in targeted counties of Washington, Windsor, and Windham counties.

Location Description:

Washington , Windsor and Windham counties

Activity Progress Narrative:

TRORC has been working with municipalities to execute new HMGP buyout grants, which will allow TRORC to issue CDBG-DR2 subgrants for the buyout match. It is anticipated the first buyout under this grant will occur in February 2015. Because there is no specifics to report, this narrative will appear the same in each activity under this grant.

Activity Description:

To provide assistance to businesses to meet remaining unmet needs in the form of technical assistance, grants, and/or loans for equipment replacement, structural repairs and working capital needs. Economic Recovery for flood impacted businesses remains a top priority for the state. Surveys conducted continue to show that flood impacted businesses have remaining un-met needs and further disaster recovery assistance is needed. To ensure a full recovery for the most impacted businesses and to support the economic health of the most impacted communities, DHCD will continue to partner with regional economic service providers to assist those businesses with remaining unmet needs. To provide direct assistance to flood impacted business including farms by providing technical assistance, grants and loans to businesses with remaining unmet needs as a result of declared disasters. This business assistance program will be administered by the existing partnership of regional economic development organizations formed after Tropical Storm Irene.

Location Description:

Flood impacted businesses located in non-targeted counties, such as Orange county

Activity Progress Narrative:

One non-targeted LMI business was assisted during this quarter and the grant funds were used for working capital and inventory.

Activity Description:

To provide assistance to businesses to meet remaining unmet needs in the form of technical assistance, grants, and/or loans for equipment replacement, structural repairs and working capital needs. Economic Recovery for flood impacted businesses remains a top priority for the state. Surveys conducted continue to show that flood impacted businesses have remaining un-met needs and further disaster recovery assistance is needed. To ensure a full recovery for the most impacted businesses and to support the economic health of the most impacted communities, DHCD will continue to partner with regional economic service providers to assist those businesses with remaining unmet needs. To provide direct assistance to flood impacted business including farms by providing technical assistance, grants and loans to businesses with remaining unmet needs as a result of declared disasters. This business assistance program will be administered by the existing partnership of regional economic development organizations formed after Tropical Storm Irene.

Location Description:

Activity Progress Narrative:

There were no non-targeted urgent need businesses assisted in the fourth quarter of 2014 under this grant.

This business assistance program will be administered by the existing partnership of regional economic development organizations formed after Tropical Storm Irene.

Location Description:

Various businesses located within the targeted counties of Washington and Windsor will be assisted with this project. While many businesses have completed a survey to indicate unmet need, the specific businesses (and addresses of those businesses) have yet to be determined and will be handled through an application and review process that is currently underway.

Activity Progress Narrative:

There were four Urgent Need businesses in the Washington and Windsor counties assisted during the fourth quarter of 2014. With these grant funds, supported activities included electrical and plumbing work, working capital, furnace replacement,

payroll, and purchase of equipment.

Activity Description:

Ladd Hall Limited Partnership, formed by Housing Vermont, Inc. and Central Vermont Community Land Trust will rehabilitate the historic portion of Ladd Hall, construct a new addition to develop 27 units of affordable housing. The property will have 14 one bedroom units and 11 two bedroom units, and 2 three bedroom units.

Location Description:

36 State Drive; Waterbury, Vermont 05676 - formerly Ladd Hall of the State Office Complex in Waterbury and part of the historic buildings of the State Hospital complex

Activity Progress Narrative:

The South Main Apartments project is about 60% completed. The old building has been demolished and the new building is under construction. Temporary heat is running in the historic building and new building. Sprinkler pipe installation is ongoing. The membrane roof is complete. Wiring in the historic building is complete. All windows are installed. Masonry work is complete. All concrete work is completed. All utility connections have been made. Sheetrock is ongoing. The project is scheduled for completion mid-April 2015 with lease-up in May 2015. Staff monitored the project which resulted in no findings.

Activity Description:

Whitingham Bridge #47 is in Jacksonville and is the farthest downstream of three relatively closely spaced town bridges across the East Branch North River. It extends from Vermont Route 112 to one of the few retail businesses in the Village. Tropical Storm Irene destroyed the farthest upstream of the three bridges, and carried it over the middle bridge and into bridge #47. Bridge # 47 was severely damaged but was repaired sufficiently to be placed into service. It needs full replacement of the deck and guardrails to be safe and fully serviceable.

>The project will involve complete removal and replacement of the bridge deck and guardrails. The abutments and steel beams will not be altered.

Location Description:

Whitingham Bridge 47 is located at 201 Vermont Route 112, Whitingham VT (Jacksonville Village).

>Windham County FIPS: 50025.

Activity Progress Narrative:

The construction of Bridge #47 was completed on schedule. Tropical Storm Irene severely damaged Bridge #47 and a full

replacement of the deck and guardrails was necessary to be safe and have the bridge fully servicable. The project involved the complete removal and replacement of the bridge deck and guardrails. Additional work, the laying the hot mix/asphalt on the approach to the bridge from Route 100 will happen in the spring of 2015. Before and after photos of the bridge have been included in DRGR.

Town of Warren	\$186,792.00	\$186,792.00
Match Contributed	\$20,637.00	\$20,637.00

Activity Description:

The Town of Warren requests \$186,792 in CDBG-DR II funds to replace the hydraulically inadequate & Plunkton Road culvert, which was severely damaged during Tropical Storm Irene, with a 12' x 6' x 70' long open bottom arch structure to prevent future flooding events from cutting off residents on both sides of the culvert. The road was completely washed out by Irene leaving an open crater sliced into the road. A proper solution was not possible at the time of the washout and repairs were made quickly to assist residents from Granville, Hancock and Rochester who were cut off from vital services.

Location Description:

The culvert is located 0.7 miles north of Plunkton Road's intersection with Vermont Route 100.

Activity Progress Narrative:

The Plunkton Road Culvert project has been completed with a new culver structure that hydraulically meets the States Bridge and Culverts Guideline. This structure should provide the water flow passage during large storm events, keeping the road open to traffic coming from the south. The project will benefit Warren residents and communities south of Warren. While system identifies 9 actual persons benefitted, with 6 as LMI, the total beneficiaries turned out to be 10 actual persons, with 7 LMI. The DRGR system will not allow the change to be made.

Activity Description:

The Village of Brownsville, located in the Town of West Windsor, was severely affected by the flooding of the Mill Brook during Tropical Storm Irene. The Town is requesting CDBG-DR funds to construct a new municipal wastewater system to serve two LMI residential units in the Village of Brownsville. The planned wastewater system will consist of two 8" gravity sewer lines that will run along Route 44 and the Brownsville-Hartland Road, and will require two pump stations. The proposed sewer lines will connect to the existing wastewater system of the former Mount Ascutney Mountain Resort, which in turn is connected to the Town of Windsor's municipal wastewater system.

Location Description:

The location of the project is in the Mill Brook area in the Village of Brownsville, located at the base of the former Ascutney Mountain Resort and within the Town of West Windsor. More specifically, the wastewater system line will run along Route 44 and the Brownsville-Hartland Road.

Activity Progress Narrative:

This is one project, with dollars split between urgent need and LMI. The narrative will be the same for both activities. The Town of West Windsor continues to work on award conditions, including the Environmental Review.

Match Contributed	\$0.00	\$0.00

Activity Description:

The Village of Brownsville, located in the Town of West Windsor, was severely affected by the flooding of the Mill Brook during Tropical Storm Irene. The Town is requesting CDBG-DR funds to construct a new municipal wastewater system to serve 29 equivalent users in the Village of Brownsville (13 residential units, 4 commercial units, and 14 municipal units). The planned wastewater system will consist of two 8" gravity sewer lines that will run along Route 44 and the Brownsville-Hartland Road, and will require two pump stations. The proposed sewer lines will connect to the existing wastewater system of the former Mount Ascutney Mountain Resort, which in turn is connected to the Town of Windsor's municipal wastewater system.

Agency of Commerce and Community Development	\$12,101.90	\$73,300.14
Match Contributed	\$0.00	\$0.00

Activity Description:

Provide staff oversight and administration of the Program for the non-targeted 20% allocation of the funding to ensure full compliance with all the rules and regulations.

Location Description:

Primarily at the main office location of One National Life Drive; however, the staff will be required to conduct onsite monitoring visits through out the State.

Activity Progress Narrative:

The State made a conscientious decision to allocate the Administration funds in an 80/20 split. The overall narrative will be the same for both.

During this quarter, ACCD staff continue to work with potential applicants, applicants who are working to meet grant award conditions, and providing technical assistance at all phases of the application and award process.
