Walkable Middlesex Village Study
MPG-funded project and Vermont Planners Association 2021 Plan of the Year
Program Basics
In fiscal year 2022 (July 1, 2021 – June 30, 2022)\(^1\), the Vermont Department of Housing and Community Development (DHCD) will grant approximately $450,000 to municipalities to promote planning, revitalization, and development activities that maintain Vermont’s land use goal of compact settlements separated by rural lands. Vermont’s communities continue to face tough challenges recovering from COVID-19 and these flexible grants are ready to boost resilience and support long-term recovery.

The Municipal Planning Grant (MPG) Program funds a wide range of municipal planning projects as allowed by Title 24 of Vermont Statutes Annotated (V.S.A.) Section 4306 (b) and (c). Projects that promote Vermont’s historic pattern of compact settlements surrounded by working farms, forest, and open space are given priority.

Each municipality may submit one application per year. The maximum grant amount is $22,000 for individual municipalities and $35,000 for group (consortium) applications. All applications are required to provide a minimum cash match of 10%.

Grant funds are regionally apportioned based on the percentage of municipalities with confirmed planning processes within each of Vermont’s 11 regional planning commission (RPC) regions. Eligible municipalities compete with their region for grant funding. Funding decisions are made by the DHCD Commissioner based on the competitive criteria listed under the Grant Selection Process later in this guide.

Grant Timeline
MPG projects must be completed within 18 months of December 1st of the award year. No time extensions will be granted.

- September 1, 2021 – Online application opens
- September 30, 2021: deadline for RPC confirmation of municipal planning process
- **November 1, 2021: application deadline, 6 p.m.**
- December 2021: award decisions
- August 21, 2022: mid-project report due
- May 31, 2023: project completion and all funds spent
- June 30, 2023: final report and products submitted

---

\(^1\) Act 74 https://legislature.vermont.gov/bill/acts/2022
**Additional Funding for Bylaw Modernization**

Local and statewide leaders increasingly recognize the need to grow housing opportunity, and Act 74 of 2021 makes $500,000 available for bylaw modernization. This one-time State funding will be available to support municipal bylaw modernization amendments in FY22 to expand opportunities for housing, confront the State’s housing crisis, and ready communities for historic investments in housing development. Details for the bylaw modernization funding will be announced this summer.

**Eligible Applicants**

**Single Municipality**

Individual municipalities with a local planning process confirmed by the RPC (including an unexpired plan) on or before September 30, 2021 are eligible to apply. To be confirmed, a locally adopted plan must be approved by the regional planning commission, and the municipality must maintain efforts to provide local funds for municipal and regional planning purposes as required by 24 V.S.A. §4350.

Municipalities without a confirmed local planning process may apply for funding only to create a municipal plan approvable by the RPC and must have voted to provide local funds for municipal and regional planning purposes. Grant proposals from municipalities that have received RPC recommendations to bring their plan into compliance with statewide requirements must propose to address the changes identified by the RPC.

Municipal organizations other than the governing body and the planning commission (such as the conservation or economic development commission) may also apply for a grant, but only with prior approval of the municipal governing body and planning commission.

Municipalities may not receive funding if they are suspended or debarred by the Federal Government; delinquent in submitting their subrecipient annual reports; or delinquent in submitting their single audit reports (if required).

**Consortium**

Two or more municipalities may apply jointly for a consortium application (up to $35,000). The application must address a shared issue and identify a lead municipality for financial administration of the project. The RPC may serve as grant administrator for a consortium (see consultant selection below). All municipalities in the consortium must have a confirmed planning process by September 30, 2021 and each municipality must submit a separate resolution form in support of the project. The consortium may involve or benefit municipalities that are not identified as a consortium member in the application. No member of a consortium application may apply for an individual MPG the same year.
Funding Amounts & Match

Single municipalities may apply for a grant of any amount between $2,500 and $22,000 with a minimum local cash match requirement of 10%, based on the grant award. For example: a maximum individual grant amount of $22,000 would require a minimum 10% match of 2,200, for a total project cost of $24,200.

A consortium of municipalities may apply for a grant of any amount between $2,500 and $35,000 with a minimum local cash match of 10%, based on the grant amount. For example: a maximum consortium application of $35,000 would require a minimum 10% match of $3,500 for a total project cost of $38,500.

Any source of cash match funds may be used: federal, other state grants, municipal, private, or non-profit. Projects that demonstrate financial partnership with outside organizations or propose a local match that exceeds the minimum match amounts are considered to have higher levels of community support in the competitive criteria listed under the Grant Selection Process later in this guide.

In-kind contributions or contribution of staff or others’ time cannot be offered as a match. Documentation of total expenditures (including grant and match funds) are required at the close out of the grant. If a project is completed with less than the total project cost expended, the match funds required will be reduced proportionately.

Municipalities seeking funds for large, multi-year projects are encouraged to separate projects into related, stand-alone phases, each with a defined product upon completion and apply for a grant each year to complete the phases (See Single Project Scope Requirement below). Because funds are allocated competitively each year, MPG support for subsequent phases cannot be guaranteed.

DHCD reserves the right to award less than the amount requested, based on the availability of funds.

Note: Please keep in mind that municipalities that accept MPG funding are not eligible to apply for a Better Connections Grant for the same state fiscal year as the MPG award.

Eligible Activities

The Municipal Planning Grant Program supports a wide range of projects relating to planning and land use, and promotes cooperation, collaboration and the exchange of ideas. Eligible projects must have a clear connection to planning and implementation of the municipal plan and will be reviewed for conformance with the regional plan, as well as statewide smart growth principles, planning goals, and land use policies.

Funds may be used to:
- Underwrite expenses for public meetings and hearings, informational workshops, citizen surveys, outreach, and notification costs
- Support research, data collection, capacity studies, inventories, and mapping
- Pay consultants, interns, regional planning commission staff, or legal fees associated with the project
- Purchase development rights, easements, and titles of properties for housing and conservation purposes identified in the municipal plan
- Purchase materials needed to produce a plan, bylaw, or implement or administer the project -- like writing supplies, maps and copies
- Conduct other non-prohibited activities

**Funds may not be used to:**
- Support political activities
- Support projects incompatible with the Regional Plan
- Pay regional planning commission dues
- Reimburse expenses incurred before the grant is awarded
- Subsidize tax mapping (see *Mapping Requirements* below)
- Pay municipal officials or municipal staff
- Capitalize a “reserve” fund for use beyond the grant period
- Purchase computer hardware, software licenses or subscriptions, or other equipment not related to a specific grant funded planning event
- Pay for the cost of administering the MPG grant such as municipal or regional staff time for documenting grant expenditures and submitting the progress report and close-out
- Support plans, bylaws and policies that violate the State or Federal Fair Housing Act. Fair housing training is available to all grantees and is encouraged for projects relating to housing and/or revisions to zoning bylaws. Please contact Shaun Gilpin, Housing Policy Specialist at shaun.gilpin@vermont.gov if you are interested in training opportunities.

**Mapping Requirement**
- All GIS mapping must follow applicable [VCGI data guidelines or standards](#).
- Parcel mapping projects may not be funded through MPGs.

**Single Project Scope Requirement**
MPG grants are limited to projects with a singular and well-defined focus – even if the proposal is part of a larger project (see example below). If multiple products or separate consultant projects are proposed for MPG funds, the application may not meet the single project scope requirement. This finding will result in a lower score and only one of the projects will be funded if a grant is awarded.

**Example:** work on both a municipal plan and bylaws in the same application will usually be considered two separate projects and typically both are not funded. However, a focused issue-oriented amendment of a plan section and the associated bylaws to implement that section of the plan, can be proposed as one project. For instance, a housing element of a plan and a bylaw amendment to adopt housing-ready regulations may be considered one project.
Use of MPG as Part of a Larger Project

MPGs may be used as part of a larger or phased project. It may also be used in conjunction with grants from other programs. If you propose to use the MPG for a larger project, begin by assigning a discrete part of the larger project to the MPG. Choose a component that best meets the competitive criteria and can easily be completed within the 18-month MPG timeframe. Applicants may contact DHCD to ensure that the activity that will meet the grant requirements.

Example 1: A municipality could use an MPG for the community outreach component of a major public project. In this instance, include the workplan for just the MPG portion of the project in the online application and submit the overall work plan for the larger project as an attachment.

Example 2: A major overhaul of bylaws typically requires two phases, first to prepare proposed amendments and then for the adoption process. A municipality could use MPG funds to focus on the preparation of amendments in one grant cycle and propose consulting assistance for the adoption hearing process in a second cycle. A workplan that includes both phases may not be considered realistic.

Coordination with State Agencies

Some local planning and regulatory projects require coordination with state agencies that have planning and regulatory authority over the project. For projects where state authority can be anticipated, applicants must identify the relevant agencies as project partners and include a task for coordinating with that agency in the work plan. Applicants are also encouraged to review the work plan with any such agency and include comments from the agency as an attachment to the application.

Example 1: Any project (streetscape, traffic calming, sidewalk, water, wastewater etc.) that proposes work within a state Highway right-of-way must coordinate with appropriate sections at the Agency of Transportation. At a minimum, the District Transportation Administrator and the Permitting Services section should be involved. Early coordination will increase the likelihood that the work product(s) can be implemented in the future.

Example 2: A project to consider village wastewater solutions must coordinate with the Department of Environmental Conservation (DEC) Water Infrastructure Financing Program before submitting an MPG application, to ensure the work plan will result in a product that can be used to obtain state and federal infrastructure funding. The best evidence of this coordination is an email from DEC indicating review of the work plan. This can be attached to the application.
Grant Selection Process (Competitive Criteria)

DHCD uses competitive criteria to score and rank applications. The statewide priorities are updated annually to comply with policy initiatives, legislation, or current events – such as this year’s COVID-19 emergency. Grants are awarded based on the application score and its rank with the scores from the other applications in the region, as well as the amount of grant funds available. Applications scoring at or below 60 points will not be funded, and regional funds may be reallocated to high-scoring projects in other regions that otherwise would not be funded. The DHCD Commissioner reserves the sole right and responsibility to allocate grant funding.

Applications are scored as follows.

Project Readiness & Need

Projects that identify a specific and documented problem the community is trying to solve with a well-organized management team demonstrate project readiness. Projects that cannot be funded through other sources demonstrate need, as well as projects that address an urgent matter.

Public Outreach & Project Partnership

Planning projects are more successful: 1) when there is sustained public outreach throughout a project, 2) when they begin with strong community support, and 3) when they are done in partnership with organizations outside the municipal government. Competitive applications will demonstrate how the project will outreach to the broader public and who supports and is part of the project from the outset. This includes necessary coordination with state agencies.
Statewide Priorities: Priority Projects
Each year the program recognizes projects with outcomes that meet statewide priorities. Projects meeting more than one priority will score higher than those meeting only one, for a total of 10 points. New this year is a category on planning for economic recovery as a result of the COVID-19 virus. Because housing continues to be a concern statewide, projects that implement Zoning for Great Neighborhoods will receive highest priority. Refer to the Application Guide for examples of diverse projects that meet these categories:

- COVID-19 Economic Recovery Plans and/or Investment
- Fair & Affordable Housing Plans and/or Regulations that Implement Enabling Better Places: A Zoning Guide for Vermont Neighborhoods
- Plans for a NEW Designated Area or Specific-Area Visual/Physical Master Planning for a Designated Area
- Innovative Statewide Model Projects

Statewide Priorities: State Designated Area Projects
Projects that relate to state designated areas receive priority in accordance with 24 V.S.A. Chapter 76A. Refer to the Application Guide for scoring specifics.

Application Guide
The Application Guide assists applicants in preparing a competitive application and allows applicants to prepare draft responses before submitting the application online. Applicants can see each application question, read advice on answering the question, view how the response will be evaluated and scored by DHCD, and prepare a draft response -- all on one form. Because the online application at GEARs can be cumbersome to navigate, users are advised to complete their application in advance using the Application Guide (available in Microsoft Word). Applicants can later copy and paste their narrative responses into the online form.

Grant Awards and Administration
Award notices are sent via email to successful applicants through the online Grants Management System. In the event of partial funding, applicants are asked to submit a modified work plan and budget. Grant agreements and other required documents will be available online shortly thereafter. Completion and electronic submittal of these forms will be required for payment. All grants management forms and instructions will be available through the Grants Management System. Grant payments and reporting requirements are as follows:

- **First Payment** – Upon execution of the grant agreement, a requisition may be submitted for an advance payment of 40% of the award amount.
- **Second Payment** – Mid-project reports are due August 31, 2021. Requisition for 30% of the award may be submitted along with a progress report.
- **Final or Close Out Reimbursement** – Up to 30% of the award is made on a reimbursement basis. The reimbursement is made when the project and its deliverables, as detailed in Attachment A of the Grant Agreement, are complete, and

---

2 Preparing an application for a new village center designation will not receive priority as a stand-alone project since this designation process is simple and requires no additional funds. Projects that implement a neighborhood development area designation are high priority.
the expenditures are properly budgeted and documented (copies of invoices and canceled checks or a detailed transaction report) showing that the funds were spent for the purposes specified in the grant agreement. Invoices must show that grantees have spent or obligated all grant funds and match funds, if applicable, no later than May 31, 2023. Funds that are unused as of that date, as well as expenditures that are ineligible or are not documented, must be returned to DHCD.

While grant activities must be completed by May 31, 2023, grantees have up to one month after that date to assemble a final report. Final reports must be submitted online no later than June 30, 2023.

Purchase of goods and services through the grant must conform with the procurement requirements defined in Attachment D to the Grant Agreement. In most cases, consultants must be selected through a competitive process.

All final products and public communication must acknowledge funding from the Municipal Planning Grant Program, administered by the Vermont Department of Housing and Community Development, Agency of Commerce and Community Development.

**Amendments**

Minor alterations to the work plan or the approved budget may be allowed but only upon request and approval from DHCD. Substantial alterations are not allowed, and the final product must remain the same.

No time extensions are offered. Projects that cannot be completed within the grant period under the terms of the grant agreement are closed out. The grant will cover eligible work completed for documented costs; however, ineligible or undocumented costs will not be funded, and associated funds must be returned.
**Consultant Selection**
The rules for consultant selection are detailed in the grant agreement’s procurement provisions (see Attachment D of the MPG Grant Agreement).

**Pre-Application Process**
Consultants may be selected before the application is submitted. If a municipality engaged in a competitive procurement process while developing the grant application and selected a contractor at that time, there is no requirement to re-open the selection process if the grant is awarded, provided the scope of work remains substantially similar to what was in the contractor’s proposal.

**Simplified Bid Process**
For contracts up to and including $10,000, the grantee is required to obtain price or rate quotations from a reasonable number of sources, but no less than two, and maintain a record of the same in its files.

**Competitive Bid Process**
For contracts more than $10,000, the grantee is required to use a competitive selection method, soliciting from an adequate number of sources. A Request for Proposals (RFP) or Request for Qualifications (RFQ) should be broadly publicized to permit reasonable competition. The grantee must maintain records in its files to document how the decision was made.

**Exceptions**
If the grantee is a “rural town” or a multi-town consortium has identified the regional planning commission as its agent, the simplified bid and competitive processes for hiring the RPC are not required.

Consultants working on an earlier phase of a multi-phase project may be re-selected for the project phase funded by the MPG, to maintain continuity between phases.
