

My name is Lynn Green. My husband Pete and I have lived in Bennington for nearly 13 years. We own the Four Chimneys Inn as well as some apartment rental properties. Our son was born here. We love it here. We plan to stay.

We enthusiastically support the TIF application.

We believe that in an era of Amazon Prime, big box stores and overnight delivery, Communities need to change the way they view their downtown districts.

We all benefit from a Thriving Downtown.

We all can contribute to a Thriving Downtown.

The fact that several civic-minded Bennington citizens, companies and organizations have stepped up to make a major investment in the Putnam Block demonstrates that Bennington is uniquely committed to make this vision a reality. I can only imagine that when the 2nd round of investment is opened up to include smaller investors that another wave of citizens will step up in droves!

This TIF is a critical component of making the redevelopment of the Putnam Block a reality.

Pete and I support it with great enthusiasm.
