38. Vermont Department of Housing and Community Development - Vermont Downtown Program / Downtown Designation

This downtown revitalization and economic development program utilizes historic preservation as a strategy. The program provides technical assistance and some benefits for public improvements and rehabilitation of income-producing buildings (and some in non-profit ownership) in downtowns that have achieved designation as "downtown development districts." To qualify, communities must meet certain requirements including having a local organization whose mission is long-term downtown revitalization. The Vermont Program is modeled after the National Trust for Historic Preservation's "Main Street™" 4-point approach to downtown revitalization and development.

- Range: Among the financial benefits are: three different state income tax credit programs for rehabilitation and code improvements to older and historic income-producing buildings, grants to municipalities up to \$100,000 for capital transportation projects; and reallocation of sales tax on construction materials for approved downtown building projects.
- Eligibility: Designated Downtowns also receive priority consideration for all state programs administering state or federal funding or other aid. Designated communities are eligible for technical assistance visits by the Vermont Downtown Program staff to assist in a variety of activities including fundraising, marketing, promotion, branding, and economic development strategies to assist in the
